

Funded by the Multi Donor Fund for Aceh and Nias (MDF), World Food Programme Shipping Service, a module of the WFP Global Logistics organization, established in October 2005, offering the overall total logistics support services to the Humanitarian reconstruction initiatives in Aceh and Nias. Phase two of the operation, the focus is on the Logistics support service (LSU) incorporating cargo handling equipment, Port capacity development and latent cargo forecasting. [www.wfplsu.org](http://www.wfplsu.org)

### OVER VIEW CURRENT OPERATIONS

World Food Programme operations now concentrate on

Logistics Support	Providing logistics support & consultancy to private sector and humanitarian organizations operating in the NAD-Nias area. Rental of cargo handling equipment
Training and ports institutional capability	Assessing & evaluating ports & institutional capability, procuring and arrange training for staff located at 15 Ports in NAD - Nias
Identification and quantification of cargo prospects	Providing 'latent' cargo demand forecasting & developing a database of existing and potential cargo, linking port gateways to the hinterland and livelihood projects.

The operation has established offices and equipment located in Nias (Gunung Sitoli) Simeulue (Sinabang) and Banda Aceh (Ulee Lhee & Lhoknga)

### Malahayati Port Training

Mr Bob Vlietstra of International Procurement Agency BV, Nederland's and Mr Martin Van Den Bosche of Ecorys Research and Consulting (in background), presented Certificate of Completion after the three days "Training on Operation and Maintenance of Ports in Nanggroe Aceh Darussalam and Nias", held in Hotel Sultan Banda Aceh from June 23 to 25 2008. The training was jointly conducted by BRR, PT Diagram Triproporsi, Ecorys Nederland BV and International Procurement Agency BV, as part of the Dutch government grant, to rehabilitate and develop the port of Malahayati being the prime gateway for Aceh Besar. The training was

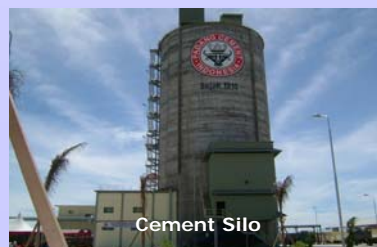

attended by 28 Port and Dinas Perhubungan personnel from 25 local government offices in NAD and Nias.

### Lhoknga (Aceh Besar)

1 unit Manitou forklift is being utilized by PT. Semen Andalas Indonesia for the work in cement factory in Lhoknga. PT. Semen Andalas Indonesia has extended to the end of December.

### Malahayati

On 23 June 2008, the packing plant / cement silo of PT. Semen Padang located in Malahayati port, Aceh Besar was officially opened by Bupati of Aceh Besar. The packing plant in Malahayati port is one of 6 packing plants of PT. Semen Padang, located in Aceh, Belawan, Teluk Bayur, Batam, Tg. Priok, and Banten.

The construction of the bagging plant started on July 2007, the silo has 6000 metric ton storage capacity to support the bagging operation. The bagging rate is around 120 metric ton per hour. Malahayati bagging plant has off take capacity of 250,000 – 300,000 metric ton per year.

The port of Malahayati is preparing a warehouse in anticipation of a proposed Liner Service from Jakarta via Belawan, scheduled to carry 60 containers per month.

The Containers will be landed at the port, transported, a short distant to a warehouse at the rear of the port, the contents of the container stripped and released by the Port, then transported to destinations in Aceh Besar and Acer Jaya by road.

The alternative is that the containers are landed and transported direct to final destination, stripped at destination and the empty

container returned to the Carrier's container depot at Malahayati.

The Kalmar Reach Stacker presently stored in Belawan will be positioned to Malahayati in support of the operation.

The empty containers will be stored in a demarcated Container Depot and shipped back to Jakarta.

### Simeulue

The units are used in support of the Port reconstruction projects, amongst other tasks being cement laying operations.

Cement Mixer Equipment

### Nias

Equipment is rented out to PT Adhi Karya, Help and UNDP Waste management project.

Waste Management Project

### Cost Recovery
