Total Amount Received:	\$2,318,965

Logistics Support Service

Nias: WFPSS Nias Port Captain and Sr. Logistic Assistant worked together to supervise and assist French Red Cross loading two Opalium (WATSAN ERU material) to trucks in Binaka, Nias.

Simeulue: WFPSS Simeulue staff assisted discharging of CONCERN cargo from a wooden coaster at the MDF Jetty and loading onto trucks to be transported by land. Total cargo discharged 47 bags of sand. Each bag weights 1 ton. These sand bags were shipped from Sibolga (North Sumatera).

WFPSS Manitou Forklift is assisting discharging CONCERN cargo from a wooden coaster at MDF Jetty.

Nias – Port Development

Important developments in the port of Gn. Sitoli are taking place at a rapid pace.

The reconstruction and repair of existing wharves are nearing completion and fenders have now been mounted and the port is now serviceable for lesser craft and traffic. Date for inauguration ceremony is not yet announced. Port congestion has already been considerably alleviated and as can be seen from statistics, cement handling is reaching the benchmark, just using local traditional coasters sailing to and from Padang with cement and/or other bagged cargo.

A weigh bridge has been installed and inaugurated at the port as a sign of new beginnings and direction of things to come.

Commercial Operator

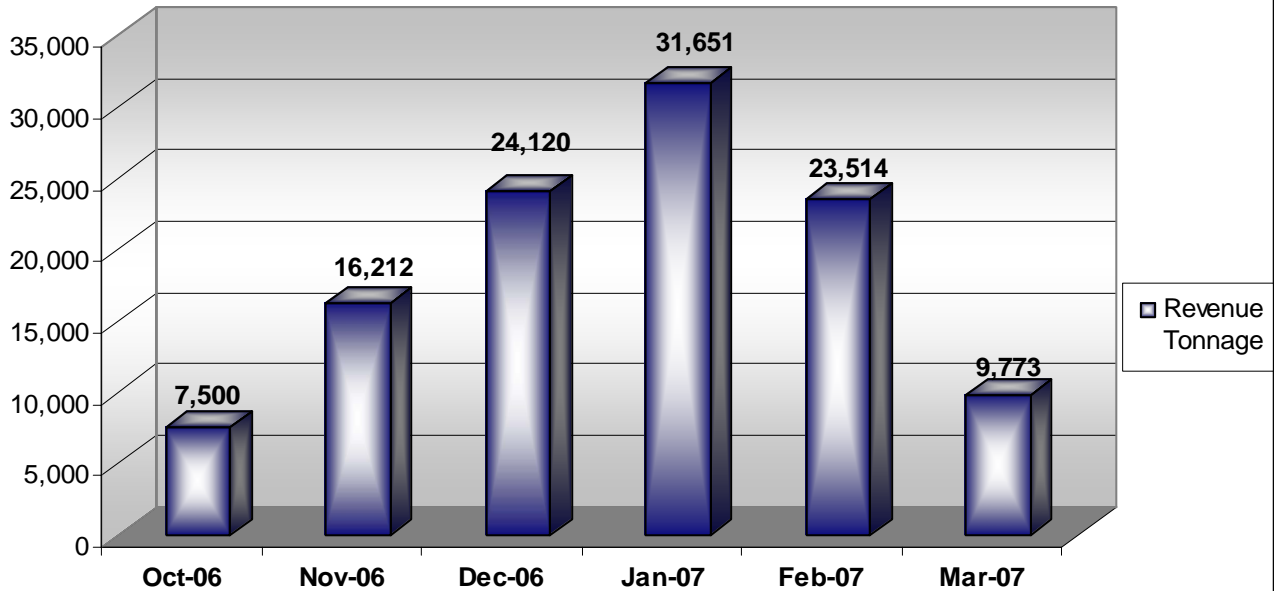

WFPSS Staff are monitoring cargo shipped by commercial operators. The observation has shown that most of commercial operators are using small wooden coasters. Loading and Discharging are usually done manually.
