Total Invoiced Under Cost Recovered
USD 134,743.65

Pipeline Information

Confirmed Shipments (CMR received)

- 6,110 MTs/5,151 M3

WFP SS operation

At the present WFP Shipping Service is operating four LCTs and one coaster. LCT Labitra Adinda is undergoing maintenance due to the damage in Calang last week.

The 2nd Kalmar reach stacker arrived in Belawan Port last week.

BRR Joint Workshop

A Joint Workshop on Evaluation of Rehabilitation and Reconstruction Activities in Aceh Jaya District was held by BRR NAD – Nias and Aceh Jaya District Government on 6 – 7 September 2006. During the Infrastructure Sector discussion, many participants reported on the bridge and roads conditions on

Lamno – Calang – Meulaboh route. Some of these roads and bridges have been damaged by a number of over-loaded trucks that have exceeded temporary bridges' capacity. A participant from BRR suggested more use of WFP Shipping Service to transport heavy materials and equipment as an alternative to land transportation.

Singkil Ferry Port Evaluation

A survey of the Singkil Ferry Port was carried out by a WFPSS Construction Engineer. At present, BRR is building a new ferry port due for completion at the end of the year. The Construction Engineer looked at the possibilities of making the current ferry jetty operational: a construction proposal has been sent to WFPSS management for consideration.
