

Shipping Service Weekly Bulletin – 3 July 2006

WFP Shipping Service, part of the WFP global organization, is a special operation set up in October 2005 to provide sea transport for the humanitarian and recovery community in Aceh and NAD-Nias.

Weekly Running Total of Cargo Shipped Since Project Launch

	MTs	Cbm
Cumulative total for week ending 26 June	41,021	139,707
Total shipped during the week ending 3 July 2006	411	3,098
Cumulative Total Shipped to Date	41,432	142,805

Timber Documentation

BRR is finalizing the guidelines for timber documentation requirements this week. A flow-chart will be produced, outlining the steps agencies must take to ensure that proper documentation is obtained for all timber shipments. In addition, the BRR will begin issuing a recommendation letter directly to the necessary authorities on behalf of the agencies.

Approved List of Timber Suppliers

In order to minimize the use of illegal timber and ensure good quality, BRR has established an approved list of 25 timber suppliers in Indonesia. Agencies are urged to use only those suppliers on the BRR list in order to circumvent potential delays when shipping timber to Aceh and NAD-Nias. More information can be found at the Timber Help Desk in BRR's offices or by contacting: Mrs. Saodah Lubis at +85260188931.

Road Conditions

Roads along the west coast remain impassable due to continuous heavy rains. Agencies are urged to check updated conditions with the Public Works department before travel.

WFPSS Jetty – Simeulue

WFP Shipping Service will be constructing a jetty in Sinabang port to ease congestion and ensure landing possibilities for the upcoming increase in shipments to the island.

Pipeline Information

WFP Shipping Service Users: The total number of users has increased in the past week from 66 to 74.

Planned Shipments: As of 3 July 2006, WFP Shipping Service has 226,824 MT / 39,267 cbm of planned shipments in the pipeline. Planned shipments include cargo projections through March 2007.

Confirmed Shipments: Currently there is 5,539 MT / 22,616 cbm in the pipeline confirmed for transport

Cost Recovery

WFP Shipping Service has been requested to implement cost-recovery as of August 1st. Rates have been approved by BRR and will be posted on WFP Shipping Service website (www.wfpss.org) later in the week. Meantime, agencies should be aware that they will be charged according to the tariff for all cargo loaded as of 00:01 hrs on 1 August 2006.

Belawan Warehouse

Plans to adopt a transit warehouse in Belawan have been withdrawn due to the implementation of cost-recovery. Agencies can utilize the port warehouse to store cargo until ready for shipment.

Sibolga – Nias Ferry Service

Agencies are hereby advised that the WFP Shipping Service will no longer operate the Sibolga-Nias Ferry Service route as of 1 August 2006 and should plan accordingly. In an effort to build capacity in the local economy and create an environment that is competitive for commercial shipping companies operating in Indonesia, the elimination of this route is the first step of the transition of operations from the WFPSS to commercial operators.

In order to ensure a smooth transition, WFPSS will provide guidance and support where possible to commercial companies as they begin operations in the region.

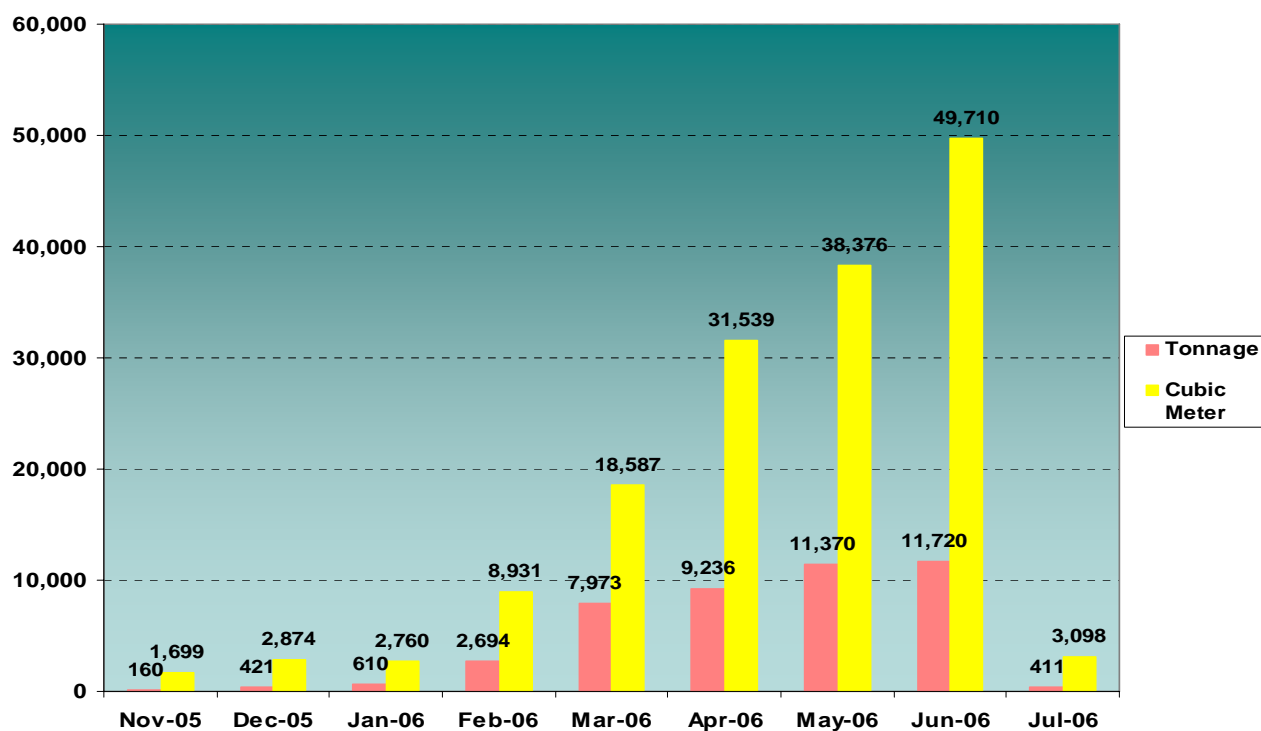

WFP Shipping Service Voyage Schedule for SIBOLGA – NIAS Route
